Ms. Kington,

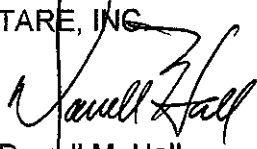

To follow are responses to your Site Inspection letter dated November 27, 2013 for the subject sand quarry.

1. Basin 001 is currently being re-constructed to enlarge the sediment storage capacity. We expect to complete construction within 2 weeks weather permitting.
2. The minor sediment loss near the outfall will be scarified, seeded and mulched as soon as possible to stabilize the site.

Please contact me if you have any questions or comments.

Sincerely,
